

REMARKS

Claims 5, 7, 9, and 11-13 and 27 are now pending in this application. Claims 5, 9, and 11-13 are independent and were previously presented; claims 1-4, 6, 8, 10-12, and 14-28 were previously canceled; and claim 29 has been added by this amendment.

The new claim recites yet another species for Group A: Types of antennae of the invention. Support for the new claim is provided at least at paragraph [0029] to [0031]. In particular, in the same manner in which claims 11 and 12 define **Species 1** and **Species 2**, respectively, in the outstanding Restriction/Election requirement, new claim 29 defines yet another species: **Species 3** disclosed by “the capsule **5** itself can be used as a radio-frequency antenna.” Further, at paragraph [0031] the specification discloses “the use of capsule **5** as a radio-frequency antenna will eliminate the need to install the planar loop antenna **13**.” That is, this recitation clearly suggests another species of the invention: a type of antenna, **Species 3**: a capsule antenna. Therefore, it is respectfully submitted that the new claim suggests a new species of the invention.

Conclusion

In view of the above amendment and remarks, Applicants believe that each of pending claims 5, 7, 9, 11-13 and 29 in this application is in immediate condition for allowance. An early indication of the same would be appreciated.
